

Resumen creación de un budget alert en AWS

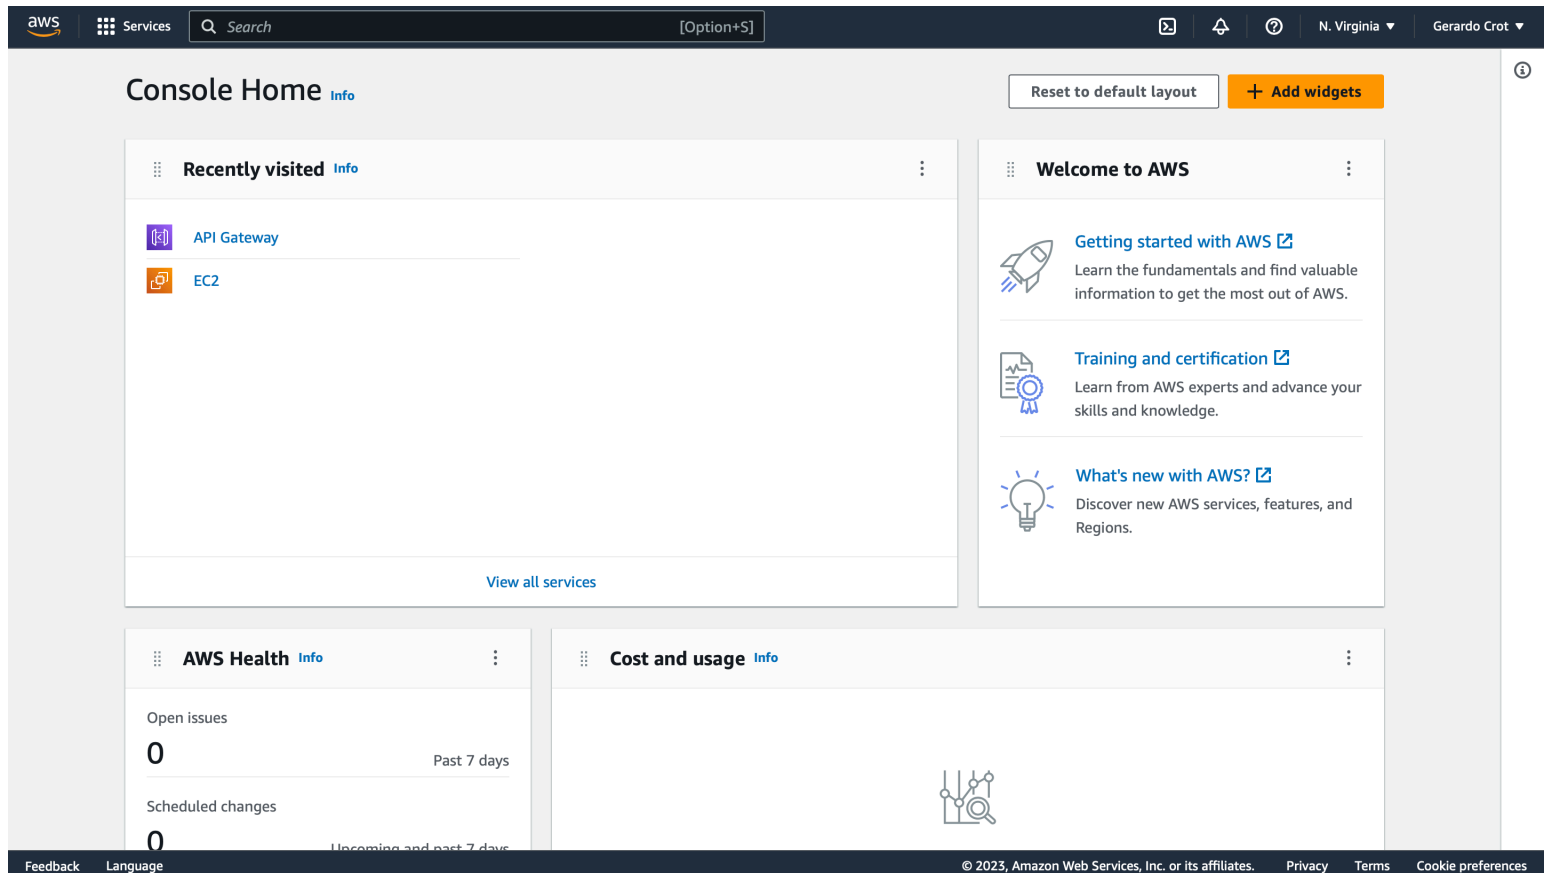

IIC2173 - 2023-1

Los budget alert son notificaciones que provee AWS para monitorear los costos de los servicios que estemos usando. Estas se pueden configurar para que cada x dólares gastados sepamos que tenemos algo que nos está consumiendo más gastos de los que teníamos presupuestado y podamos detenerlo.

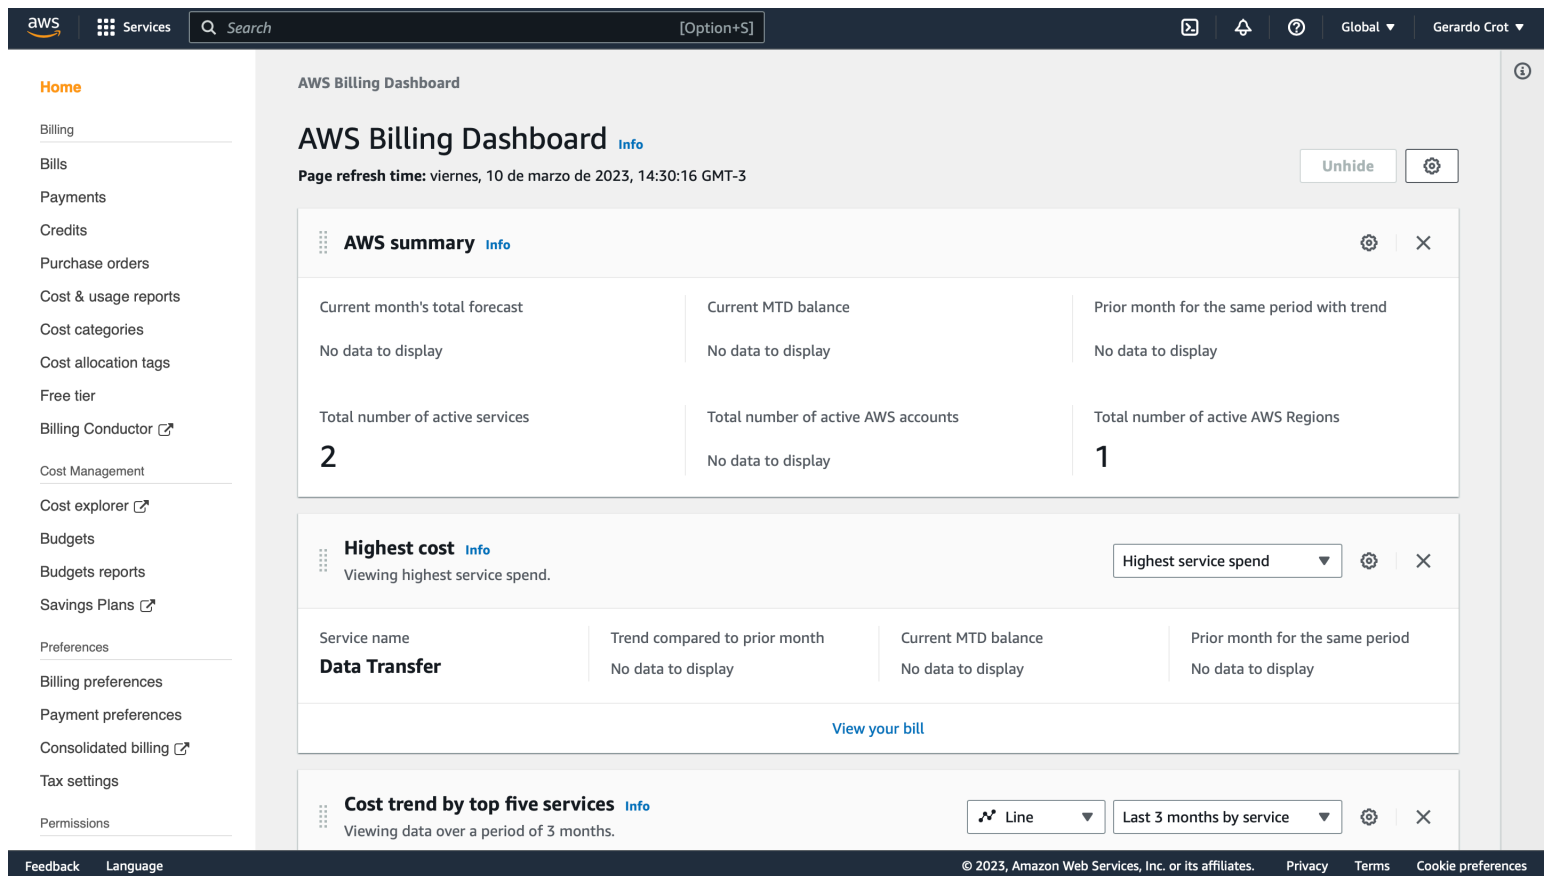

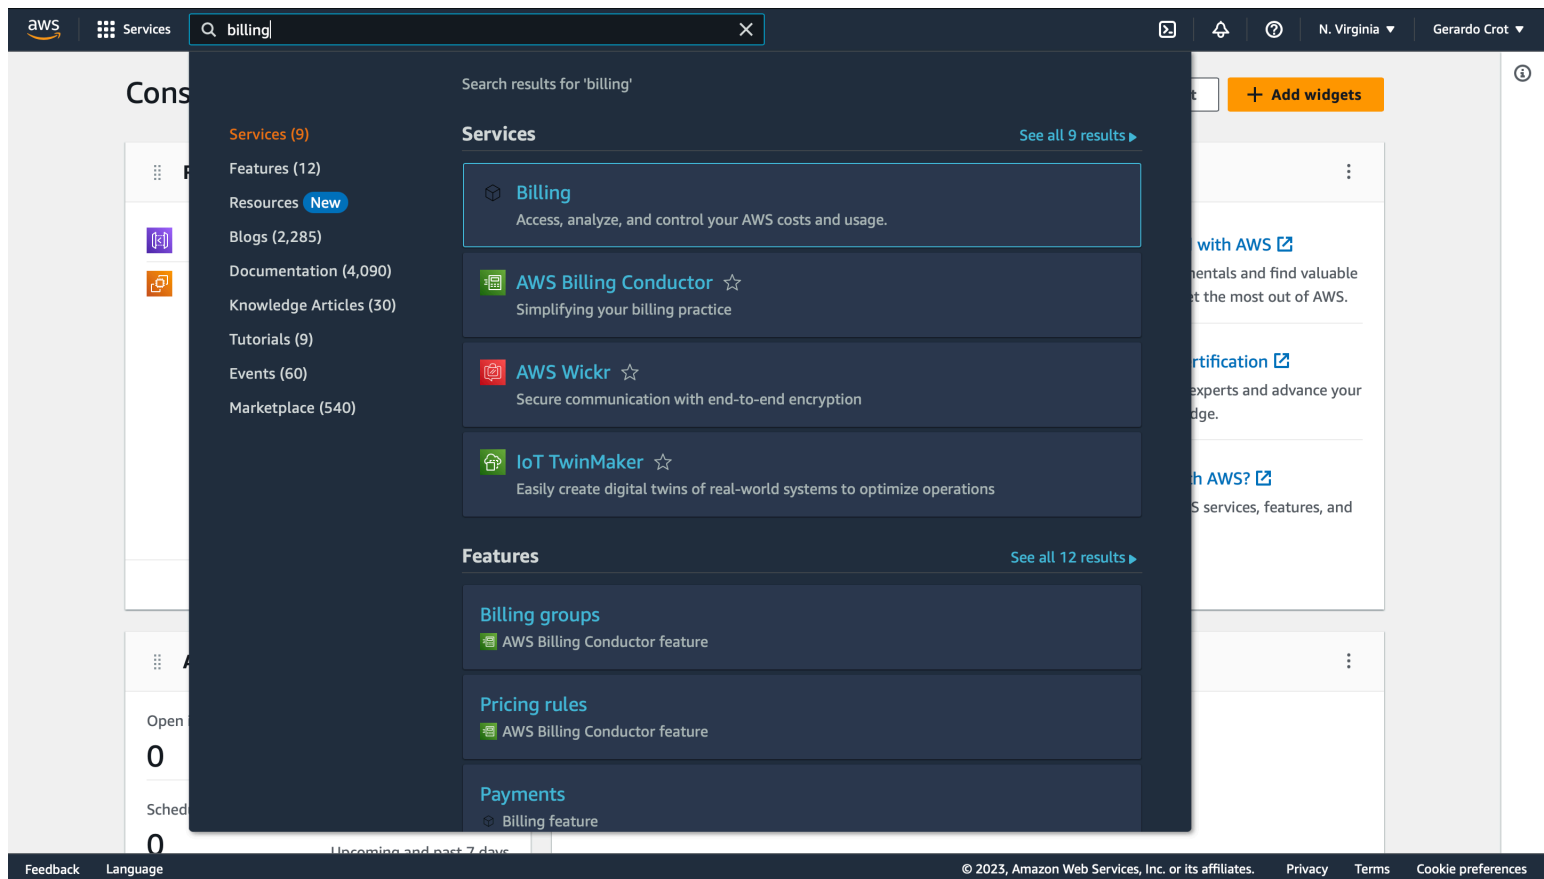

Por lo mismo, este resumen está hecho para que sepan como monitorear sus gastos en caso que usen cosas más allá del *free tier* (Capa gratuita) que provee AWS dentro del primer año de uso de la cuenta.

1. Ir a la sección de los budget alerts

El primer paso es ir a la sección de Billing dentro de su cuenta de AWS. Para esto en el buscador deben buscar este servicio y apretar en su logo.

The screenshot shows the AWS Management Console Home page. At the top, there is a navigation bar with the AWS logo, a 'Services' menu, a search bar, and a user profile section showing 'N. Virginia' and 'Gerardo Crot'. Below the navigation bar, the main content area is titled 'Console Home'. It features a 'Recently visited' section with links to 'API Gateway' and 'EC2'. To the right, there is a 'Welcome to AWS' section with links to 'Getting started with AWS', 'Training and certification', and 'What's new with AWS?'. At the bottom, there are two sections: 'AWS Health' showing 'Open issues' and 'Scheduled changes', and 'Cost and usage' with a magnifying glass icon. The footer contains links for 'Feedback', 'Language', and copyright information for Amazon Web Services, Inc. or its affiliates, along with 'Privacy', 'Terms', and 'Cookie preferences' links.

2. Crear una Budget Alert

Dentro de la consola de Billing de AWS, deberán crear un nuevo budget apretando en el botón naranja de la pantalla. *(Botón Create Budget)*.

AWS Budgets

Set custom budgets that alert you when you exceed your budgeted thresholds

AWS Budgets is your hub for creating, tracking, and inspecting your budgets.

Start tracking your AWS costs and usage

Once you have a budget created, AWS Budgets allows you to create budgets, forecast spend, and take action on your costs and usage from a single location.

Create a budget

Pricing (US)

There is no additional charge for using AWS Budgets. You only pay for configured actions that go beyond the free tier offer of 62 action-enabled budget days.

View pricing details

Getting started

What is AWS Budgets?

How it works

AWS Budgets
Improve planning and cost control with flexible budgeting and forecasting

Create a budget
Customize how you want to budget your spend

Get alerted
Receive alerts when you exceed your budget

Respond with actions
Define and trigger cost saving responses to stay within budget

Acá les mostrará opciones para crear su alerta. Para esto seleccionarán que sea una con template, luego elegirán el template de alertas mensuales y deberán indicar el precio (en dólares) tope al que quieren llegar para ver la notificación. Además, deberán escribir un listado de correos a los cuales se les mandarán las notificaciones.

Choose budget type

Budget setup

☒ Use a template (simplified)

Use the recommended configurations. You can change some configuration options after the budget is created.

☐ Customize (advanced)

Customize a budget to set parameters specific to your use case. You can customize the time period, the start month, and specific accounts.

Templates - new

Choose a template that best matches your use case.

☒ Zero spend budget

Create a budget that notifies you once your spending exceeds \$0.01 which is above the AWS Free Tier limits.

☐ Monthly cost budget

Create a monthly budget that notifies you if you exceed, or are forecasted to exceed, the budget amount.

☐ Daily Savings Plans coverage budget

Create a coverage budget for your Savings Plans that notifies you when you fall below the defined target.

☐ Daily reservation utilization budget

Create a utilization budget for your reservations that notifies you when you fall below the defined target.

Zero spend budget - Template

Budget name

Provide a descriptive name for this budget.

Nota: tengan en cuenta que AWS notificará cuando se llegue al 85% y al 100% del presupuesto durante el mes.

You will be notified when 1) your actual spend reaches 85% 2) your actual spend reaches 100% 3) if your forecasted spend is expected to reach 100%.

Finalmente, al hacer click en crear tienen su budget alert creada.
